DETAILED ACTION

Statement of Reasons for Allowance

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: None of the cited references discloses nor suggests the claimed invention including a feedback loop having a high input impedance amplifier to sense the oscillator voltage and output a current proportional to a positive peak of the oscillator voltage to reduce current flowing into the oscillator circuit from the bias circuit, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
